

EU Regulation 21/2004 compels a mandatory introduction of electronic identification for sheep and goats from January 2010. Next to electronic identification, the Regulation also requires individual recording of all sheep (except those subject to derogation) and animal movements in farm registers. IAE in association with Gallaghers now offer a comprehensive range of identification products and weighing solutions.

SmartReader HR3

Ergonomic Handle

Comfortable soft grip handle.

Display Screen

Bright, easy to read display screen.

Battery

Internal rechargeable battery with charge indicator

Vibrating Device

Vibrating handle to indicate tag read successful.

LED and Beeper

Beeper sounds and super bright LED at end of snout flashes, to show tag read successful

Hand Guard

Ergonomically designed to reduce risk of trapping hand or arm in animal handler.

Dimensions: 600mm (l)

PERFECT FOR A WHOLE DAY'S ACTION

- Up to 5000 tag reads held in memory
- Ergonomically engineered grip enables all day ease-of-use

MOVE EASILY BETWEEN PENS

- Switch from pen to pen without the time consuming need to download data between pens, simply start a new session on the reader in between each pen.

KNOW EXACTLY WHERE YOU ARE IRRESPECTIVE OF NOISE, DISTRACTIONS OR STOCK ACTIVITY

- Audio, visual and vibratory handle keeps operator informed of status in noisiest environments.
- Graphic display shows multiple data at once including number of tags in current session, total number of tags in memory, EID number of last tag read and remaining battery life.

FLEXIBLE DATA TRANSFER AND STORAGE OPTIONS TO FIT WITH YOUR YARD SET UP

- Transmit as you're working, store in memory or do both at the same time
- Comes with MyScale Pro software to download files & store sessions on computer
- Or can be interfaced with your existing analysis & tracking software.

What is EID?

EID is the technology by which individual animals are identified and traced by a unique identifying number stored on an electronic ear tag or bolus.

Why EID?

EID provides you with accessible, accurate information on your individual animals.

EID gives you the ability to make more informed farm management decisions.

EID maximise the number of high production animals on your farm.

Panel Reader
mounted to IAE race

Benefits of EID

- Easy identification of individual animals
- Fast access to accurate information, automated drafting
- Reduced paperwork
- Full integration with other databases
- Accurate record keeping for breeding
- Monitor animal health risks
- Full traceability for consumers
- Direct interface to weighing system
